1: nNE^VER NEVER NEVER speak of

HOSPITALWORLD!

"2: It is BAD for treatment to be aware of TREATMENT. it is much better for your PROGRESS in HOSPITALWORLD to avoid further insight in your case if you are not able to handle your own disabilities. It is also much easier to focus on on the aspects of your own IMPERFECTIONS when you're not constantly reminded of everyone elses issues. YOUR ILLNESS IS UNIQUE and your torment

WELCOME TO

TO BE WELL-ADJUSTED IN HOSPITALWORLD, you must
BECOME HOSPITALWORLD. In this terminal race,
you should be the vilest and fattest.

you should eat babies and send the weak on mind to ce
certain death. This will temporarily ensure your own
survival. To truly be the patriarch of HOSPITALWORLD
you must be a psychopathologist of HOSPITALWORLD...
RIGHTEOUS and SENEHLE, disgusting disease as well BEING
So you can feel superior and DIAGNOSE those worse at
HIDING their sick minds...

Streets are the h always in HOSPITALWORLD and each
"home" in HOSPITALWORLD is WHITE & RACED.

TO BE RICH IN HOSPITALWORLD is to have the WILDEST
and most RACED of "homes", you can pretend you are
not a BARRING OF HOSPITALWORLD, and you don't have
to listen to all the annoying screams and whining
from less SUCCESSFUL patients of HOSPITALWORLD.

PRESENTERER:

I'm too white to be Brazilian, and not white enough to
be European. White privilege is to have the entitlement
to judge what I am. To educate me on the political
situation of my own country, and how it should be applied
to educate me on anarchism and how life.
In my own country, and in educate our contrises
to educate me on anarchism my own life.
We are here, finally, to educate our contrises
in our bodies, and in our home.
White privilege is to not know about or much less
experience post-colonial identity.

THE ANTHROPOPHAGY MOVEMENT
IT's not safe for women and people of color to be
surrounded by white men (and some women) who act like
they know better, (Gisgender)

They have no idea what those with post colonial
identity had to go through. What the families and
ancestors have gone through to achieve that kind
of comfort and confidence in what they are, and what
they know

White privilege is to be born with it
While others have to fight for it

1920's CULTURAL CANNIBALISM IN BRAZIL
Brazilian portuguese belongs to Brazil, not to Portugal.
In the 20's when we finally achieved the confidence
to say- No, you don't get to correct how we speak.
This is our language, not yours anymore.
Sure it is still Portuguese. But what we have now is
consumed, digested and vomited out version of the
mixture of african, indigenous and european
influences that make up our shared identity.

THE LAW

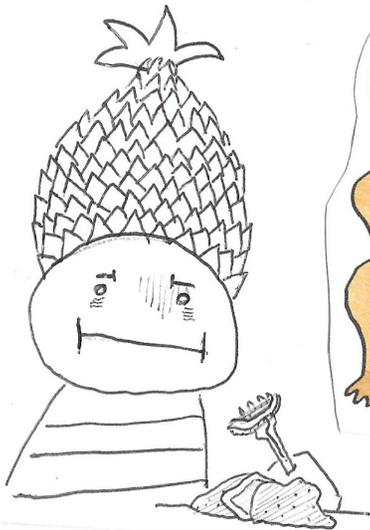

the freedom to interpret laws:

"laws are better explained, interpreted and applied by those whose interests and capacities consist of confusing and evading them."

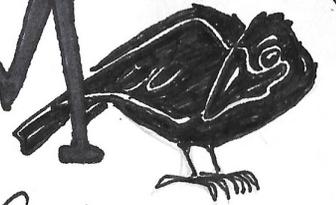

this institution, maybe in its original form was tolerable, but with time it has become distorted and obscured by corruption."
